

TEAM COACHING

CREATING HIGH PERFORMANCE IN THE WORKPLACE

CoachSource Team Coaching

CoachSource Team Coaching is more than traditional team building. While focused on enhancing the relationships between team members, it takes growth much further. CoachSource Team Coaching guides an intact leadership team to new levels of trust, operational effectiveness, and business performance.

Our coaches work with teams to clarify goals and build the right processes to achieve those goals. They help enhance a team's ability to collaborate and dialogue, with more open and creative discussion. They support team members to hold each other accountable while maintaining psychological safety. CoachSource Team Coaching opens the way for teams to develop greater strategic awareness and decision making.

Accelerate Team Growth

CoachSource applies an overarching, robust model to Team Coaching, with proven techniques that create lasting change. By applying this model, CoachSource Team Coaching improves team performance every step of the way.

We offer a range of customized Team Coaching solutions that typically occur over 1 to 12 months. Each program is comprised of background activities such as consultation, interviews and planning, assessments, and coaching activities which include the whole team, sub-teams, and/or individuals. Shorter and extended programs can also be designed.
